Key Qualifications

- **Problem-Solving Skills:** I learned to think critically in computer science classes, which helps me solve complex programming and engineering problems.
- **Responsibility:** I led group projects at school, making sure everyone was involved and we met deadlines. I am a reliable and dedicated person.
- **Planning and Organization:** I made study plans to fit classes and activities together, which really helped me improve my grades and manage my time better.
- **Technical Skills:** I gained hands-on programming experience, especially in Python, through school projects and personal work.
- **Adaptability:** I can quickly learn new technologies and programming tools, which helps me adapt to different tasks during my studies.
- **Teamwork:** I worked with different teams on projects and assignments, which helped me improve my communication and collaboration with others.

Hobbies:

- **Programming and Technology:** Actively learning and improving programming skills while keeping up with the latest trends in technology.
- **Reading:** Passionate about reading literature that encourages critical thinking and personal development.
- **Music:** Enjoy listening to various types of music to relax and foster creativity.
